

ASSIGNMENT # ->5

Principal of Programming Languages (NCS-503)

Test date: 5 Oct 2015

QUESTIONS:

1. Explain type checking and type equivalence with any program.
2. Describe static Binding time and dynamic binding time with example.
3. What are static scope and dynamic scope?

OBJECTIVES-

1. To learn about type checking in different programming language constructs and its grammar.
2. To understand different programming binding its impact on different machines.
3. To understand the programming scope and solve the problem.

Outcomes: The student will be able to understand the programming scope in Pascal and different grammar concept as well as type checking to remove ambiguity from grammar. They will also be able to answer different binding issues related to translation.

	Q1	Q2	Q3
CO	1,2,3	1,2,3	1,2,3
PO	1,2,3,12	1,2,3,12	1,2,3,12
PSO	1,2,4	1,2,4	1,2,4
